Overview

This document has been designed to provide an overview of how the PB fuel surcharge is determined for Canada domestic parcels. The surcharge applies to all parcels and is based on the monthly average spot prices for diesel fuel reported by Kalibrate Technologies Ltd, a company that monitors diesel fuel prices across Canada. The surcharge is updated on the 1st calendar day each month based on published index price from 2 months prior.

Process

1. Navigate to the Kalibrate fuel link: <https://charting.kalibrate.com/#dataAnalytics>
2. Scroll down to the following section to generate the pricing report:

To view pricing information, please use the drop downs below.

Select Product	Select Report Type	Select Frequency	Select Year	Select File Type	GENERATE REPORT
----------------	--------------------	------------------	-------------	------------------	------------------------

3. Input the following values:

Criteria	Value
Select Product	Diesel
Select Report Type	Retail
Select Frequency	Monthly
Select Year	Current Year
Select File Type	Excel

To view pricing information, please use the drop downs below.

Diesel	Retail	Monthly	2023	Excel	GENERATE REPORT
--------	--------	---------	------	-------	------------------------

4. Select **Generate Report**.
5. Open the Excel export.
6. Scroll down till you find the line-item **Canada Ave (V)**. Here you will find the cost per liter.

2023 c/litre	Diesel / Diesel (ULS) Retail prices, including taxes, self serve / Prix au				
	Jan/jan	Feb/fev	Mar/mar	Apr/avr	May/mai
Canada Ave(V)	196.2	177.1	169.4		
Canada(S)	202.5	186.9	175.0		
Canada(P)	200.9	179.3	171.1		
Western Ave(P)	186.4	175.3	167.4		
Ontario Ave(P)	196.6	168.2	163.3		
Quebec Ave(P)	228.3	201.4	189.4		
Atlantic Ave(P)	204.6	202.7	181.1		

- a. Please note Kalibrate uses 100-liter increments, so value will be divided by 100 to determine surcharge on PB Fuel Index.
 - b. Fuel lags by 2 months, so in the provided example the fuel surcharge for Mar will be applicable for parcels shipped in May.
7. Cross-reference the average fuel price with the PB Fuel Index to determine the fuel surcharge for Canada Domestic. In the provided example the fuel surcharge is 15% with the average fuel price of \$1.694.
